# CORONA-WARN-BUZZER

The Corona-Warn-App in a simple key fob

» HOW IT WORKS
1
SWITCH ON YOUR CORONA-WARN-BUZZER
That's it!

2
RISK ANALYSIS
Similar to the Corona-Warn-App.

3
WARNING
The Corona-Warn-Buzzer vibrates, lights up and rings. A corona test is recommended.

4
RECOMMENDATION
In case of a positive COVID-19 test follow the recommendations in the user guide of your Corona-Warn-Buzzer.

» FEATURES OF THE CORONA-WARN-BUZZER

EASY

Very easy operation, one press of a button is all it takes

SECURE

Communication via existing cloud infrastructure of the Corona-Warn-App

DATA PROTECTION COMPILIANT

Absolutely anonymous, stores NO personal data, no tracing back to own personal data possible

COMPATIBLE TO CORONA-WARN-APP

100 % compatible, no seperate infrastructure required, works also abroad

Just like the Corona-Warn-App the Corona-Warn-Buzzer can:

- be taken everywhere (simply put it in your pocket)

- detect risk encounters

- warn the user in case of risk encounters

- show the individual infection risk of a contact

- **help and relieve the public health service when tracking infections chains**

⟫ ADVANTAGES

For users

- **No smartphone** required for use

- **No installation effort**

- Independent of Google und Apple, nevertheless **complete compatibility** to the Corona-Warn-App

- **No additional technical infra-structure** or own internet connection required

- Significantly **longer battery life** than using a smartphone

- **Self-explanatory display** of own infection risk via LED

- **Small, light, handy**, yet robust and splash-proof

For the public health service

- **Reduces coverage gap** of the Corona-Warn-App

- Even **faster notification** of risk encounters possible

- Users help actively to **trace infection chains**

- **No additional technical infrastructure** required

- **Contact tracing compliant with EU-GDPR** → no creation of movement profiles, only encounters with other devices (Corona-Warn-Buzzers/Smartphones with Corona-Warn-App) are registered

⟫ TARGET GROUPS

People

- without smartphone
  - Seniors
  - Children and teenagers

- with smartphone
  - Users of older smartphones on which the Corona-Warn-App does not work
  - People with smartphones and data protection concerns
